# **Annual Report**

**(FY July 2022- June 2023)**

Distinguished members of the General Body and my dear colleagues in the Board of Directors of LFMEAB, ladies, and gentlemen,

Assalamu Alaikum and good evening.

It is a great pleasure and opportunity for me to welcome you all to the 20th Annual General Meeting of the fiscal year July 2022-June 2023 of Leathergoods And Footwear Manufacturers & Exporters Association of Bangladesh (LFMEAB).

In the present context, I would like to apprise you of the following issues –

- a) Current global economic outlook
- b) National economic situation
- c) Sectoral export performance
- d) Major activities of the association round the year, and
- e) Financial summary

## **Current Global Economic Outlook**

UNCTAD's Trade and Development Report 2023 reported that world economic growth slowed from 3% in 2022 to 2.4% in 2023 with few signs of a rebound in the current year. Global growth is forecast to moderately pick up to 2.7 percent in 2024. According to IMF, world economic growth slowed from 3.5 percent in 2022 to 3 percent in 2023 and projected 2.9% in 2024.

According to the Market Intelligence report, demand for goods remained under pressure from past interest rate hikes. Forward-looking indicators have also hinted at more conservative expectations concerning manufacturing production. By broad product category, the intermediate goods sector was again the worst performer. Consumer goods notably recorded the slowest decline in new export orders since March 2023.

Trade deteriorated across all the top 10 economies except India. Among the developed markets tracked, the EU remained the worst performer at the end of 2023, as its trade downturn extended to 22 months. The UK and Japan meanwhile saw comparatively mild declines in goods trade. Japan saw increased rates of decline in exports but in the UK a faster fall in manufacturing exports. This bleak economic situation is creating slow market demands and sluggish manufacturing and export business at home and abroad.

## **National Economic Situation**

Although Bangladesh's economy has recovered from the economic damage caused by the impact of COVID-19 and the ongoing Russia-Ukraine crisis, the recent slowdown in the global economy has adversely affected the country's economic growth. In FY 2022-23, as per the Bangladesh Bureau of Statistics (BBS), GDP grew by 6.03 percent against the target of 7.5 percent. However, according to the World Bank, Bangladesh's GDP grew by less than 6% in FY 2022-23. Slow GDP growth was due to elevated inflation, slowing exports and remittances, and the ongoing pressure on the country's foreign exchange reserves.

According to the Export Promotion Bureau (EPB), Bangladesh earned \$55.55 billion in export earnings in fiscal year 2022-23, seeing a narrow growth of 6.67% year-on-year. However, Bangladesh earned 4.28% less than the export target, which was set at \$58 billion, due to the slow demand, ongoing economic turmoil, geopolitical crisis, and inflationary pressures in key destinations. Consequently, exporters are going through a tight business situation due to the pressure from disruptions of logistic networks and increases in shipping costs, inadequate energy supply, high inflation increases in commodity prices, and prices of raw materials among others.

## Sector Export Performance

Export earnings from the country's leather, leather products, and footwear sector; the second-largest earner of foreign currency after the ready-made garments (RMG) industry, witnessed 0.48% growth in the FY2022-23.

During the period, we:

- Exported 1702.48 USDM from leather & leather products (41-43 & 6403) and non-leather footwear (64) (Excluding 6403).
- Exported 1223.62 million USD from leather & leather products (41-43 & 6403).
- Non-leather footwear recorded more than 7% growth over SPLY indicating the upward

- trend of export of non-leather footwear.
- Bangladesh earned 123.44 USD million from leather (Chapter 41) with 18% down, 396.67 USD million from leather products (42-43) with 17% export growth, and 703.81 USD million from leather footwear (6403) with 7% down over FY 2021-22.

Total export of leather & leather products (41-43 & 6403) and other footwear (64) (excluding 6403) reached 1702.48 USDM in FY 2022-23, whereas it was 1694.33 USDM in FY 2021-22. Overall, export performance in the reported period shows that the Bangladesh leather export industry along with its all subsectors surpassed the export performance of the previous financial year with a slightly upward trend.

#### **Other Information**

Management is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the financial statements and our auditor's report thereon. The Association is not required to publish a separate Annual Report and hence there is no other information to be audited.

#### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs and other applicable laws and regulations as explained in note # 3 to the financial statements, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing its ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Association or to cease operations or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Association's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Association to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Association's financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

### Report on Other Legal and Regulatory Requirements

We also report that:

- We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of our audit and made due verification thereof;

- In our opinion, proper books of accounts as required by law have been kept by the Association so far as it appeared from our examination of those books; and
- The Association's statement of financial position and statement of profit or loss and other comprehensive income together with Notes 1 to 24 dealt with by the report are in agreement with the books of account.

### **3.03 Lease:**

IFRS 16 replaces leases guidance, including IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases – Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

The standard is effective for annual years beginning on or after 1 January 2019. Early adoption is permitted for entities that apply IFRS 15 at or before the date of initial application of IFRS 16.

IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard – i.e. lessors continue to classify leases as finance or operating leases.

During the FY 2022-23, there are two (02) rental agreements which is applicable as leases under IFRS 16. However, the Association will recognize ROU assets and Lease liabilities in accordance with IFRS 16 from the FY 2023-24 following an approval by the Board of Directors.
